

Goal 1 of the Campaign Plan, Support Stability, Reconstruction, and Homeland Security Operations, has been revised from the original five Objectives to three. Following are the three revised Objectives. The paragraphs explaining these three Objectives are being developed.

1a: Improve capabilities, responsiveness and readiness of USACE to support all hazard full-spectrum contingency operations (Readiness XXI). New Objective 1.a came from original Objective 1d and is considered “Tactical.”

1b: Formalize and improve USACE and Theater Engineer Command roles and execution in supporting Army and COCOM activities, as well as DOS, USAID, DHS and other Federal Agencies, as required. New Objective 1.b came from a combination of original Objectives 1a and 1c, and is considered “Operational.”

1c: Institutionalize Engineer mission and technical support roles and responsibilities at the Department and National level for contingency operations domestically and abroad. New Objective 1.c came from a combination of original Objectives 1.b and 1 e, and is considered “Strategic.”
